A suggested organization of this presentation is:

1. **Title**:

   A short, creative, and marketable title capturing the key idea.
   Include team member names and roles.

2. **Overall Problem**:

   Tell this as a story, instead of simply reading the slide.
   Motivate your audience to be interested in your problem.

3. **Contextual Inquiry**:

   Include images that give your audience a feeling for your fieldwork.
   Convey that you have seen and understand the challenge.

4. **6 Tasks**:

   At most one sentence per task. Convey the breadth of tasks you have considered.

5. **3 Design Sketches**:

   Convey the breadth of designs you considered.

6. **Selected Design Storyboards and Tasks**:

   Convey your rationale for choosing a design focus.
   Present your storyboards, ensuring they effectively illustrate your selected design and tasks.

7. **Summary**:

   Summarize the lessons learned in your design process.
