

Assignment 2.4h: Presentation on Civil Engineering Technology

Presentation

Research a new or interesting technology, project, or research in Civil or Environmental Engineering.

Prepare and present a 2 to 3 min. presentation on a project you find.

Include:

- Description of what you researched.
- How it relates to Civil Engineering.
- Why it is of interest to you.
- How it has been or will be used (application).
- How it might help society.

Makeup:

If you have an excused absence, please upload a written version of your presentation **by the due date**. Those who are unprepared to present on the due date must upload a written version of the presentation.

Rubric:

Project/Technology description. Should be clear, complete (4)

Relationship to Civil Engineering. Should be a clear, well explained relationship (4)

Why project/technology is of interest to you.(4)

Description of the how the project/technology will be used (4)

Benefit to society. If benefits are not obvious, explore the possible benefits (4)

Total Points Possible = 20.

Developed through a partnership between the University of Utah College of Engineering and Granite School District
