

Assignment 5.2.1: Understand the Problem

For the Bioengineering project of prosthetic arm design, record the following in your notebook:

- 1) Problem Statement - Describe the problem (not the solution).
- 2) Design Statement - Describe what you will design to solve the problem.
- 3) Design Requirements - What must your design be able to do? What are the constraints on your design?

Developed through a partnership between the University of Utah College of Engineering and Granite School District
