

Assignment 5.6.1: Final Prosthetic Arm Design Testing and Reflection

Write answers to the following questions about your prosthetic arm design and test performance in your notebook:

1. What about your arm design **worked well** during testing?
2. What **did not work well**?
3. What would you do differently to **improve** your design?
4. Create a **sketch** of your arm **as it was built**. Label the **materials** used and include **dimensions**.
5. **What changed** from the original design and why?
6. What were the final **materials** used and **final cost** of your arm?

Developed through a partnership between the University of Utah College of Engineering and Granite School District
